AFTER A WEAK OPENING PUR-CHASES CAUSED A LATE RALLY.

Covering of Short Sales Figured Largely in the Deals-Local Markets Promise Better Trade.

At New York, yesterday, money on call was easy at 11/62 per cent.; last loan, 2;

ercial bills, \$4.88%. Silver certificates, 674/067%c; bar silver, 67c; Mexican dollars, 54c. At London, bar

silver was 30%d per ounce. The total sales of stocks were 227,-949 shares, including the following: American Sugar, 19,600; American Tobacco, 31,400; Atchison, 9,200; Burlington, 24,900; Chicago Gas, 320; Distilling, 3,800; Kansas & Texas Pacific, 3,200; Louisville & Nashville, 15,100; Manhattan, 7,900; Missouri Pacific, 3,460 Reading, 4,200; Rock Island, 4,200; St. Paul, 21,200; Southern Railroad preferred, 5,500;

Tennessee Coal and Iron, 5,300; United States Leather preferred, 3,600: Western Union, 28,900. The stock market enjoyed a belated rally yesterday, under the stimulus of covering of shorts by both local and foreign dealers. Moderate purchases for long account were also noted. The contributory causes were various. In the first place the general exroad officials as to the eventually extreme beneficial effect on earnings of the respective properties, to result from the ratification of the trunk-line agreement, had a favorable nce. Burlington rallied from an early lecline on the announcement of the declaration of the regular quarterly dividend. Secretary Carlisle's speech at the Chamber of Commerce dinner was well received. North-ern Pacific was helped by the publication of the earnings for the second week in November showing an increase in gross of \$1,300. Furthermore the short interest in a number of stocks had become unwieldy, and a rally was logically due. On the other hand, the total of gold shipments for the week, to date, was increased by one million, to be forwarded by to-morrow's steamer, making the aggregate exports \$2,750,000. De-spite a reduction in the rates of sterling exhange, which was announced late in the fternoon, and was due to the offerings of old bills, further shipments of gold are exed to be made on Saturday, the esti-

mates ranging up to \$4,000,000. The commercial house shipping to-day was again in the market yesterday as an offerer of gold cables. London quotations for Americans, previous to the opening at New York, came lower and the foreign news was not encouraging. The market started in active and weak, and the bears had a good grasp on the speculation during the forenoon and caused sharp recessions in a number of the eading shares. About 1 o'clock the rally bean, inspired by the Burlington dividend nd other influences noted elsewhere. In the upward movement material gains were cored throughout the list, and particularly n Tobacco, Western Union, Manhattan, see Coal, Cotton Oil, Louisville & fissouri Pacific. November every year, considering the needs of every mission field in detail, and making the appropriations for the ensuing year. The amount expended last year in the various fields was about one and a quarter mil-lions of dollars. This does not count the more than a quarter of a million dollars expended by the Woman's Foreign Missionary Society. But the society now faces a debt of nearly a quarter of a million dollars, so the committee wisely decided to scale down the appropriations a trifle all around We have in Indiana more than 175,000 communicants in the Methodist Episcopal Church. It was concerning the Bulgarian mission, which has had an unfortunate and even a pathetic history. This scrap of a message is to-day made the text of an editorial, which is evidently intended to be facetious. Of course, I would not discuss the propriety of facetious editorials on such subjects, nor yet would I express an opinion as to whether this particular editorial reaches the level of true humor. I write to state a few facts concerning the mission in question.

The Bulgarian mission was commenced in 1867. For a time it had three missionaries from this country, Dr. Long, Dr. Prettyman and Mr. Flocken. Dr. Long was then called to a professorship in Robert College, in Constantinople, Dr. Prettyman was permitted to return to America and Mr. Flocken was left alone. In 1871 the mission was abandoned. The field was re-occupied in 1878. In 1877 it was broken up by the war. In 1879 the work was again resumed. At the beginning of the history of this mission no effort was made to gain members. The policy at the outstart was to preach the gospel to the people, with the expectation of producing a quickened life in the effete Bulgarian Church. But in process of time that policy was changed, and effort was made to gain converts. But wars and rumors of wars have been a constant indrance in the gaining of members who could be exhibited in statistics. It is only within a few years that any money has been expended for property. For many years we rented buildings for schools, and hurches, and parsonages. With the investment of small sums of money for buildings we begin to give the Bulgarian people the impression that we will not abandon our work among them, and so the number of members increases, while the number of regular attendants at the services is about twice as large as the membership. But the influence of the mission has been most salutary in ways which cannot shown in statistics. Mr. Oscar C. McCulloch never gathered a large membership during his ministry in this city. But he was a stimulus to the life of all the churches -- both Protestant and Catholic. Dr. Parkourst has accomplished some things in New York which cannot be exhibited in the general minutes of the Presbyterian Church like manner the whole religious and educational and social and political life of the Bulgarian people has been influenced for good by the Methodist Episcopal mission, which is the only evangelical agency north of the Balkan mountains. The mission of

the American Board operates in the terri-tory south of the Balkan mountains. Our Bulgarian members contributed thousand dollars for various church purposes last year. Three mayors of towns are members of our church. One of our members is a member of a committee in a city of twenty-five thousand people that nominates the officials and government employes for that city. One of our pastors has been chosen as one of a committee of five to represent one of the towns in a grand reception to the Prince.

The Loss Only Fractional in Cereals, but the Tendency Said to Be Toward Lower Prices.

CHICAGO, Nov. 20 .- Business in the speculative markets had an appearance of great activity to-day, but it may be inferred from the fact of the oats market becoming quite excited over a 1/sc decline that it takes little 75c: fair bridle, \$80790 per doz: city kip, 607 excited over a 15c decline that it takes little 75c: French kip, 90c7\$1.20; city calfskins, in these days of stagnant trade to work up 90c7\$1.10; French calfskins, \$1.2072. enthusiasm. Prices suffered little. Compared with yesterday's closing prices, wheat is from 1-16c lower for December to 16c lower for May. Corn is he lower for November and unchanged for May, and provisions show declines of 10c in pork and .021/2 in lard, and from .021/2c to .05c in ribs. There was a great deal of December wheat for sale around 57%c at and around the opening. The indication thus given of a de-

sire to liquidate the holding before delivery day had a depressing effect, and was chiefly instrumental in bringing about the decline which succeeded a rather firm opening. The Chicago receipts to-day were 246 cars, compared with 335 a week ago, and Minneapolis and Duluth got the comparatively small number of 935 cars. On Wednesday of last week the two last-named cities received 1,182 cars, and to-day's receipts only exceeded those of the corresponding day a year ago by ten cars. The demand for red winter wheat for shipment did not result in the taking of such chunks of it as on the day before, but for carloads to interior millers it was still active. A convincing proof of the scarcity of soft red wheat was the fact of bids being received for it from Kansas City, but the price asked was apparently beyond the ideas of the Kansas City men, for nothing came of the inquiry so far as ascertained up to a few minutes from the close of the session. Closing cables were firm, and the market has ruled steady at the price it had been hammered down to during the middle of the session.

May opened at 61%c bid, declined to 61%c, sellers, and closed at 61%661%c. December ranged from 571/2657%c at the start to 57%c, and closed at 57%c, sellers.

Later on in the session some activity was noticeable, and for half an hour around noon this market was the only one of consequence on the floor. The feeling was easy, and prices closed a shade lower than yesterday, 20% @2012c, and closed at

The trade in provisions was more active than for several days past, but the prices suffered, as the increased transactions came from the selling out of long stuff. Country liquidation was guessed at from the number of selling orders, which orders appeared to be in the hands of commission houses. Hog receipts were 47,000 head, and the same number is expected to-morrow. Prices at the close show declines of 10c in pork, .021/2c in lard and from .021/2c to .05c in ribs.

BOSTON, Nov. 20.-The American Wool and Cotton Reporter will say to-morrow of the wool trade: Wool of all kinds can be bought at this date nowhere else in the world as cheap as in the principal markets of the United States. The current condi-tion of the market is healthy, even though its pulse is not throbbing as it did in midsummer. As respectable, moderate-sized woolen plants of eight to ten sets of cards are quietly picking up stock, and presumably digesting it, and while the demand is not phenomenal, it is sufficiently miscellaneous to afford most kinds of material an opportunity to participate in the movement, the situation ought to be regarded as being reasonably encouraging. Although but little more wool has been sold this week than was moved in the same period of a year ago, there has been a good deal of quiet sam-pling, which it is idle to suppose means anything else than an ultimate purchase and consumption. A call for fine wools continues, but it has apparently sufficiently abated to allow a disposition to acquire various other sorts. Not only has the demand for domestic stock become more general in character, but parties have recently been asking for certain kinds of foreign wools to which they were not long since little inclined to pay any attention. Carpet wools are receiving their full share of attention. sion progressed. The excellent grading of the new corn is the weakening feature of the situation, so far as November and December are concerned. Much of the corn week, of which 3,102,600 lbs were domestic and 2,817,200 lbs were foreign. In sales of the week have amounted to 2,923,300 lbs. of which 1,865,800 lbs were domestic and 1,057,500 lbs were foreign. The total sales in the corresponding week last year were 2,919,000 lbs. The sales since Jan. 1, 1895, amount to 184,044,170 lbs, against 130,783,585 lbs.

Iron and Steel.

CHICAGO, Nov. 20 .- The Industrial World of Nov. 21 will say: Finished iron and steel are in fair demand, largely from manufacturers of railroad rolling stock. Iron bars steady at \$1.50, but steel bars weak at \$1.571. The new orders placed last week aggregate 2,000 freight cars, and inquiry continues. So far car builders have bought little raw material, and as the tonnage of pig iron will be large, an active buying movement will set in after the holidays. Some inquiry is already noted by furnaces for early delivery next year, and producers are willing to contract on a basis of \$14 for No. 2 foundry. The iron market, though quiet is fairly steady, the only weakness noted as yet is the speculative lots held by outsiders. Neither mills nor furnaces disposed to cut at present.

Vice Suppression in Tipton. To the Editor of the Indianapolis Journal: I have noticed several articles in the Journal with regard to the Society for the Sup-NEW YORK, Nov. 20.—Butter—Receipts, 4,289 packages. Market steady; Western creamery, 15@23c; Elgins, 28c. Cheese—Re- of papers throughout the State have com-

mented on the work we are engaged in, especially the part the ministers have taken. The society wishes to apprise its friends of its success in what seemed almost a hopeless task. Five weeks ago more than one hundred women banded themselves for the purpose of having the laws enforced and cooting out the dens of iniquity in this community. The city police seemed inadequate to the occasion, and violations of law and common decency were so flagrant that it required considerable agitation to arouse the women to action. The first move, after calling a meeting and effecting organization, was to send out a committee to engage every lawyer in the city to assist in the prosecution of the lawbreakers. Three houses of ill fame had began operations in the city, and the carousing, drinking, fighting and de-bauchery were disgraceful in the extreme. These things aroused the community to the greatest indignation, and the city can now e congratulated on the good the society has accomplished. The keepers of these houses are all under indictment, and this morning the judge of the court sentenced one of the ringleaders to twenty days in jail and \$20 fine. One of the girls was reeased yesterday, after serving a term jail, on her promise that she would go to her home in the north part of the State and not return again. All the others will be tried at this term of court and be punished as the judge deems best. The good women of this country do not realize the influence they may have in suppressing the vices that annoy and harass them day after day, and which they tolerate because they can see no way to escape them. Municipal officers are too often con-trolled by those who have little respect for law and order, and have not yet learned that all people will not always submit in silence to their neglect of duty. We have wholesome laws, and if the moral people had the courage to enforce them, under the Nicholson law we could close two-thirds of the saloons in the State. Under the Moore law we could force the drug stores to carry on a legitimate business, gambling and proson a legitimate business, gambling and pros-titution would seek a place of impenetrable darkness and if the police, who have the power to stop these violations of law, refuse to do their duty, let the good women and men unite in a common cause and one great effort to save the boys and girls from the moral vampires and to protect our homes and save the fair name of our State and

Tipton, Ind., Nov. 19.

To the Editor of the Indianapolis Journal. In your issue of this morning I read the communication of "U. L. See," and indorse all of his points made therein. While sound in facts, "U. L." is badly wrong in quotation. He quotes: "The man recovered of the bite;

It was the dog that died," and attributes ?? to Hudibras. Sam Butler's knight never said it. It was little Bill, in Goldsmith's "Vicar of Wakefield," who said: "But soon a wonder came to light

To show the rogues they lied; The man recovered of the bite. The dog it was that died." WILLIAM COMMONS. Union City, Ind., Nov. 20.
